Comments from Exhibitors

"The scale of this Expo is enlarged, and the standard is improved to a higher level. There are more professional visitors from the Disabled Persons' Federations, medical, health care and rehabilitation institutions than previous years. This is my experience as an exhibitor for 10 years."

— Liu Qing, CMO of Changzhou Qianjiang Rehabilitation Corp., Limited

"As an internationally recognized audiphones brand, Starkey deems that China has a promising market. The Care & Rehabilitation Expo provides an important platform for the developing of Chinese market and brand promotion."

— Lu Yanqing, Marketing Manager of Starkey Hearing Technologies (Suzhou) Co., Ltd.

"As a time-honored company of assistive devices, we can promote our new products and latest development to our dealers and agents through the Expo so as to enhance our cooperation. We also meet many end users of our products. By face-to-face communication, we are able to improve our products to meet individual demands and create more comfortable experience. The exhibition result is quite satisfactory."

— Zhao Jianrong, Deputy General Manager of Foshan Dongfang Medical Equipment Manufactory Ltd.

"The Expo of this year is very popular. During the Expo, we meet numerous professional visitors from the Disabled Persons' Federations, civil affair administrations, medical, health care and rehabilitation institutions, and special education schools. Our products get good promotion and we've done really well."

— Tan Chaokang, General Manager of Beijing Guohongkang Medical Electronic Instruments Co., Ltd.

"In the past, our products were mainly used by children, but with people aging, the potential market demand of the elderly people is huge. We exhibit our latest products and promote new rehabilitation idea. Also we have combined the power of government, industry, research and development institutions, and consumers, promoting greatly the development of the industry."

— Liang Wei, Deputy Director of China Rehabilitation Research Center for Hearing and Speech Impairment

"We have met many people from the Disabled People's Federations across China, therapists from rehabilitation hospitals and purchasing personnel. Through further communication and product experience, Fourier becomes more popular in the North of China. We will continue to participate at the exhibition next year and expand our booth."

— Gao Yinghua, Shanghai Fourier Intelligence Co., Ltd.

Comments from visitors

"Compared with previous sessions, products displayed on this Expo are of richer varieties and higher technology. More professional visitors, especially those from the assistive devices industry, attend the Expo. The purchasing negotiation provides basis for the update of our product catalogue."

— Wang Xingling, Deputy Director of Jiangsu Assistive Devices and Technology Center for Persons with Disabilities

"What impress most is that more high-tech products related to bionic technology, intelligence and wearable devices are exhibited on the Expo this year. There are also many high-end brands of nursing beds which are urgently needed by our center."

— Lv Yanke, Comprehensive Service Center for Persons with Disability in Shenzhen

"I come to the Expo for the first time, and I want to purchase some rehabilitation devices. The Expo is professional with abundant varieties and brands of rehabilitation devices which can completely meet our demands. To my surprise, the smart wearable devices and service robots are displayed. The Expo presents high technology and products to us, and we benefit a lot."

— Li Yongde, General Manager of Hubei Oumulai Trade Co., Ltd.

"Currently, products and services for the aged and the elderly disabled people are in urgent demand. The Expo helps us narrow down the scope for selection and improves procurement efficiency."

— Liu Ziqiang, General Secretary of China Aging Development Foundation

"The International Disability Alliance is dedicated to helping disabled people around the world. China has played a crucial role for a long time. I am deeply impressed by the scale and numbers of visitors of the Expo. I hope that there will be more events like this in the future so as to strengthen our communication. I am looking forward to further cooperation."

— Vladimir Cuk, Executive Director of the International Disability Alliance

"I can see more new products, latest technology and solutions every time I come to China. All of these bring more alternatives for consumers and the products are more and more up to individual demands. I hope to see more international elements and such positive interaction will yield better solutions and share unique experiences. I am sure that the Expo will have a bright future."

— Chapal Khasnabis, Global Cooperation on A.T. WHO

Excellent Concurrent Events

38 Professional Forums

100 Speakers

10,000 Conference Attendees
